## DECIDE TO CURTAIL ACREAGE A FOURTH.

Delegates From Nine Counties Agree At Greenville--Sherman Ball Is Honored With Offices.

A dispatch from Greenville of March 17 gives a comprehensive account of the delegate convention of the dark tobacco growers held there on that date. The deliberations of that convention are of interest to every farmer and every friend of the farmer among our readers, so we print the dispatch in full as follows:

"The convention held here today by the tobacco growers of the dark district proved to be a great success. The convention had been called by E. L. Davenport, president of the state department of tobacco growers of the A. S. of E., and every magisterial district in the counties represented had one or more delegates present, the following being the counties: Muhlenburg, Bell, Boone, Ohio Hancock, Henderson, McLean, Breckinridge, Union and Webster.

"A temporary organization was effected by electing W. S. Hall, of Breckinridge county, president and S. A. Burns, of Owings, as secretary. A committee on resolutions was appointed as follows: Henry G. Overstreet, T. T. Barrett, E. L. Davenport, W. P. Stephens, Sam J. Baker, M. F. Sharp, Ben Watson and W. S. Ball. The committee retired and later reported a series of resolutions that was most heartily commended and unanimously adopted. The matter of chiefest interest in the resolutions is that recommending to all and pledging the convention and those represented in it as far as could be done that only 10,000 bales of tobacco be put out to the hand this year and 10,000 bales for each half hand. The resolutions also defined a "dark tobacco" as one containing sixteen and sixty and a half hand, to be forty between twelve and sixteen. It was also resolved that no county is to plant more than 75 per cent of an average crop, the crops of 1903 and 1904 to be taken as the standards in estimating this average.

"Permanent officers of the association were elected as follows: Henry G. Overstreet, of Davies, president; T. T. Barrett, of Henderson, vice president; W. S. Hall, of Breckinridge, secretary; S. T. Burns, of Davies, assistant secretary. This is the "Dark Tobacco" District association and all counties that grow dark tobacco are to be eligible to membership.

"There was an unusual turnout here today of local growers. The county union met and there were 1,200 men in the procession. By actual count there were 150 vehicles, horses and men and twenty-five horses in the parade. At first the crowd attempted to get into the court house, but it was so small. The opera house was then selected and it was packed. The speakers were: Henry Overstreet, of Davies; T. T. Barrett, of Henderson; W. P. Stephens, of McLean, and W. S. Hall, of Breckinridge. Of these the principal address was by Mr. Overstreet. His effort was an unusually happy one and it received rounds of applause and cheers. In every sense the gathering was a notable one."

Champion Liftemer for Rheumatism. Chas. Drase, a mail carrier at Chaplinville, Conn., says: "Chamberlain's Pain Balsm is the champion of all liniments. The past year I have treated a great deal with rheumatism in my shop. Last keeper here recommended the store keeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by Short & Hayes.

## YOU CAN'T MISS THIS.

By saying you can't miss this, we mean, of course, you can't afford to miss it. "It" is the big picnic to be given on July 4 by Noke Pete, Jubal Hook and W. N. Pate at the same old grounds near Hardinsburg. Don't forget the date and the fact that you can't miss this occasion.

## CHILD DIES OF BURNS.

McQuady, Ky., March 21. (Special.)--A child of Wash Dunn's died Wednesday from severe burns received by falling into a fire on the preceding day. The interment was at the McQuady graveyard."

## TOBACCO GROWERS MUCH ENCOURAGED.

Not So Many As Expected Need A Warehouse Plan--Prospects Favorable For Those Who Do.

It developed in the joint convention of tobacco growers of Hancock and Breckinridge counties held at the city hall Saturday afternoon that more members of some local unions of the American Society of Equity will be able to hold their tobacco at home and without a warehouse plan than was at first expected. A committee appointed by the convention to put a warehouse plan on foot are at work this week and have reported that prospects are favorable that a warehouse and an experienced man to manage it can be secured here, though the financial part of transaction has not yet been settled. The convention did not take the express view of forming a state wide warehouse plan to help only growers who are in a position to hold their tobacco at home, because of indifferent barns or lack of money. Fifteen local unions in the two counties nearest to Cloverport were represented. On next Saturday they will be represented again, when the committee will make its report to the delegates, and the delegates will make reports to the committee on the number of men in each local union who want their tobacco warehanded and want an advance on it and those who want their tobacco warehanded and do not want an advance.

The local unions were represented as follows:

Taylor No. 1--Wash Robbins, Chas. Goff.

Duke No. 1--Robt. and Thos. McGavock.

Cloverport No. 1--Will Pumphrey, John Knight.

Marting No. 3--Owen Duncan, Malcolm O'Brien.

Marting No. 2--W. N. Pate, Isaac Blair.

Hardinsburg No. 8--Abe Meador.

Marting No. 1--Thos. M. Bates, A. B. Orman.

Petersville No. 2--T. I. Sunett,

Perry Tally, Bert Adams.

Hardinsburg No. 5-C. M. Basham.

Cloverport No. 2--Jno. Warfield.

McGaudy No. 1--Will Lyons.

Hardinsburg No. 1--Sime Miller.

Cloverport No. 4--Jno. Farrow.

Victoria No. 2--Wm. Smith.

Victoria No. 1--John McDowell.

The convention was presided over by Harry Waggoner. The object of the meeting was explained by E. B. Oglesby who suggested the adoption of the Davies county equity warehouse plan, a synopsis of which was published in the News last week, principally on the grounds that the plan had been accepted by the growers of that county after long consideration.

Bob McGaudy, after outlining a plan for a local warehouse, moved that a committee wait on the local banks to see if they would finance a local warehouse plan. This motion carried and the chair appointed Robt. McGavock and W. B. Tally on the committee.

During the absence of the committee there were many short talks made, the consensus of opinion being that tobacco should be held at home if by any means possible and, if not possible, because of poor storage facilities and lack of money, at a Equity warehouse in Cloverport. That which was mentioned in the opening sentence developed, some delegates stating that they were strong almost to a man and believed in the union helping its members to hold. And one at least, Cloverport No. 8, don't want to have anything to do with a warehouse, because they can keep themselfes.

Among those who made short talks were the following: T. M. Bates, Chas. Goff, Wm. Snyder, Henry Waggoner, Oscar McGavock, Thos. McGavock, Albert Orman, E. B. Oglesby, Will Pumphrey, Joseph Muller, W. B. Tally, Malcolm O'Brien. From notes taken by the editor, it appears that space for them in this issue cannot be spared.

After most of the talks had been made, the committee that waited on the banks made their report. They said that the report from the cashier of the Breckinridge Bank was favorable but that he would have to confer with his associates this week before giving a definite answer. The cashier of the Bank of Cloverport told the committee that the institution would help farmers individually, as in the past by advances on sixty, days and four months time, but would not attempt to finance a warehouse movement.

Before the adjournment of the convention, the committee mentioned in the first paragraph, composed of Tous. and Robt. McGavock and W. B. Tally, was appointed by the chair, and Saturday was set as the date of the next joint convention.

## TO EMPLOY TWENTY MEN.

Rock Quarry Near Town Will Soon Have Full Force At Work.

The rock quarry about a mile and a half west of town, which was opened on Tuesday of last week, as was mentioned in the News, will soon be in full operation, giving employment to twenty men or more. The quarry will be operated by Joseph Zellers and Henry Heim, of Cannonsville and have the property leased from W. S. Ashby.

The operators expect that all of the warmer months of the year will be required to get the stone for a new bridge built over Salt River on the Henderson Route, a contract for the Henderson Bridge having been made between H. C. Zellers and the town.

A switch has been put in by the Henderson Route at the quarry, which is on the main track, and derricks have been erected for moving the stone. It is understood that some of the men to be employed will be sectioned.

The quarry has not been in operation for several years. It was formerly operated by C. L. Cornwell, the well-known civil engineer of Louisville, who was in a serious condition several weeks ago as the result of being struck by a street car.

Starting Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, who was in a serious condition shortly after his arrival in this country, has had an auspicious start.

Archdeacon M. H. Benton, of the Epworth League at the Methodist church Sunday afternoon the time of the regular meeting was set for 6:30 o'clock every Sunday evening. The membership was increased from thirty to forty, and a still larger increase is expected by next Sunday. The League has had an auspicious start.

The Methodist and Presbyterian churches had two additions each Sunday.

## DOING GREAT WORK.

Rev. J. T. Newson, of Murfreesboro, Tenn., who conducted the recent revival at the M. E. church, South, is doing a great work at Hawesville, where he has been preaching daily at the Methodist church since Sunday, March 12. At one service during the past week there were ten conversions, at another seven and about six at another. Interest in the revival at Hawesville is growing and it is expected there will be more conversions before its close, which will not be earlier than next Sunday evening.

About fifty citizens of Cloverport attended either the morning or the evening services yesterday, paying tribute to the pastor and the work he is doing. The work and showing their appreciation of the great good he did in Cloverport. A large crowd will probably attend next Sunday, when train No. 48 will be held at Hawesville until the close of the evening service, as it was last Sunday.

By the Tenik Route.

The pith that acts as a tonic, and not as a drastic purge, is Dr. Little's Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small, easy to take and a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by All Drugists.

REVIVAL ON AMONG  
NEGRO POPULATION.Few Days' Preaching of Rev. T.  
Timberlake, Of Ohio. Results  
In Twenty-Five Conversions.

A revival among the colored population of the town, which may equal in number of conversions and reclamations the revival which recently closed at the M. E. church, South, is now in full swing at the Ethiopian Baptist church, which Rev. A. J. Ballou is the pastor. It is very gratifying to the white citizens that there is a revival among the colored people, and it will be doubly gratifying if they will only keep it up after the traveling member of their own race, who is telling them of the wickedness in their past lives and encouraged many of them to do better, has taken his departure.

Rev. T. Timberlake, the evangelist whose preaching is doing this great work for the colored people. He is preaching every evening to big congregations and services will be continued all this week. Several days' preaching resulted in twenty-five conversions, twenty of whom will become church members, and many more are expected by the pastor before the revival closes next Sunday. The revival is a general one, converts being asked to unite with any church of their choice.

Rev. P. L. King made a talk at one of the meetings which was greatly appreciated, and a number of white citizens have attended some of the services. To all Rev. Ballou extends a cordial invitation.

It is believed that the revival among the white Protestant churches has had some effect, indirectly, in increasing interest in this revival among the colored population.

Dearton, Ind.—Waiting for the world to come to an end and advocating the creed of their sect, several families of this city, under the leadership of William Whittlesey, so of Elgin, Ohio, are preparing for the millennium, which they say will come some time in April.

## TO VOTE HOW TO VOTE.

The people will at the November election be called upon to vote on the question of amending the Constitution of Kentucky so as to provide for a voice voting, instead of the secret ballot, as at present. The act providing for a vote on this question was passed at the last regular session of the Legislature and became law June 14, 1904. Politicians had lost sight of the fact that the act had been passed and the general public had not discussed the matter. Voice voting was practiced in Kentucky up to the time of the adoption of the Australian ballot law.

## LEARN HOW TO FORGET.

H. H. Haynes Shows When We Should Not Remember Things.

H. H. Haynes writes to the News from Georgetown, Texas, as follows: "Much is said and written nowadays about cultivating the memory. Schools have been established for the purpose of teaching memory culture. The reason is that we hold the memory so that they may be able to retain impressions, remember even past history, recall past experience, and so on—all of which is a good thing. A good memory is necessary to success, financial social and religious. A well-trained memory is a very useful thing to possess. It not only makes life more enjoyable to ourselves and those around us, but it makes us more useful."

"But with all of our memory training we should learn how to forget."

"Perhaps there are more people who need to learn how to forget than to learn how to remember. Forgetting can be learned just as easily as remembering, but it requires just the opposite kind of training. But in learning how to forget the things we should forget will help us to remember the things we should remember. The things that are unpleasant, the things that irritate, the things that make us feel bitter and unkind, are the things we should banish to absolute忘記ness."

"Forget the pain in the body, as well as the mind, depends upon forgetting. To let memory of a wrong longer and rankle in the mind will not only dissipate the mental energy, but it will rest upon the body. Forgetting is splendid nerve for both body and mind. If any one has been mean to you, has wronged you, has been slandered or spoken against, and she has been speaking with Mrs. Pinkham. Then her can and do every symptom, so that she really knows more about the true condition of her health than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, and she will advise you free of charge. The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated by her thousands of letters received by her prove many such grateful letters as the following are constantly pouring in.

## WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

Mrs. J.H. Farmer      Mrs. Ella Lee

An eminent physician says that women are not truthful when they tell their physicians: "This statement should be qualified: women do tell the truth, but not the whole truth, to male physicians, and this is only in regard to those painful and troublesome disorders peculiar to their sex."

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions concerning those conditions which are known only to herself, even by her family physician. This is especially the case with unmarried women.

It is any woman's desire to suffer and the doctor will not only dissipate the mental energy, but it will rest upon the body. Forgetting is splendid nerve for both body and mind. If any one has been mean to you, has wronged you, has been slandered or spoken against, and she has been speaking with Mrs. Pinkham. Then her can and do every symptom, so that she really knows more about the true condition of her health than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, and she will advise you free of charge. The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated by her thousands of letters received by her prove many such grateful letters as the following are constantly pouring in.

In the last issue of Up To Date Farming, official organ of the American Society of Equity, W. S. Ball quotes as follows:

This quotation is in the "Ping and Pong" column of the tobacco department of the paper.

THE people, the voters of this county want W. H. Bowmer to make the race for the Legislature. They say they would like to have the pleasure of voting for him. Now it is up to the politicians to nominate him.

Mrs. G. A. Foote, of Bewleyville, dealer in pure-bred Plymouth Rocks and Brahma, carried off two second prizes on her fowls at the recent poultry shows in Louisville and Owensboro. She has some as handsome birds as ever graced a pen and is doing a fine business.

CUTHBERT POWELL, a commercial writer, for more than a quarter of a century in close touch with the packing industry, declares that the average net profit of the packers, instead of 2 per cent. on the price of cattle as given in the Garfield report, is \$7.41 per head, or 15 per cent. on the price of cattle, and that this profit is turned over every two to four weeks.

FARMERS are not letting go their tobacco, as some people predicted they would when the first "season" came. It is a fact that the farmers are getting closer together and standing firmer for their price with every succeeding day. There is practically no break in their lines. They are displaying the strength of the little Japs, and, like the Japs, they have a cause to stand for.

PRESIDENT ROOSEVELT's highest ambition is to be like Washington and Lincoln near as he can. Now if the men who hold the offices in this country and those who are seeking them would emulate Mr. Roosevelt, troubles in our land and country, instead of increasing, would grow less. Emulating President Roosevelt is the highest standard of American manhood and citizenship, to our mind.

We are indebted to Col. Bert Cunningham, of Chemung, for a choice barrel of Ben Davis apples. No other man knows better how to produce them. It's nice to be remembered by your friends and no man appreciates these things more than the News man. Here's hoping, Colonel, that your years may be long in the land and that your orchards will continue to bear abundant fruit and your prosperity have no bounds.

THE importation of a fifty-four horse power gas engine into this town by Mr. Eugene Haynes reminds us that twenty-one years ago we imported a little two-horse power gasoline engine, the first of its kind ever installed in the town. It was an old style machine run by gasoline and a hot tube. We used this for several years and then put in one run by natural gas, the first of its kind used and the first to utilize natural gas for manufacturing purposes. We are now using a fifteen-horse power and this will give you some idea of how we have grown.

HENRY MOORMAN's highest ambition, he says, is to walk the streets of Harrisburg and have the people call him "Judge Moorman." And when that comes, "I want to walk the streets with a baby in my arms calling me 'pappy'." Walkable ambitions they are and the young man should be encouraged in them. He seems to have a cinch on the nomination by his party. And now, for a cinch on his final election, he only has to take a stand for the right, cut whisky entirely out of his campaign and say to the voters:

"I am going to make this race on high-toned, honorable principles. I am not going to use money or whisky to secure a vote, let others do as they may." Now if the young man will take our advice he will rally to his support all the good men and women in this good county of Breckinridge.

CLOVERPORT is growing in population, in business, in manufactures, in buildings, in goodness, and in everything that goes to make a live, prosperous town. Put your faith in Cloverport and stick to it. If every Cloverporter would do his best and set his key to a tune that rings out each morning clear and strong to our opportunities there'd be life and enthusiasm in the old town and money and work a plenty for every man and woman in it. It's believing in one's self and in his town that makes things move. If you don't believe there's something doing in Cloverport watch the trains, and see the comers and goers; they load and unload here, and if there wasn't something doing people would not come and they would not go. Ask the bankers; they can tell you a tale of the money that flows in and out over their counters; their story would open your eyes, too. Nothing doing in Cloverport? Don't you never believe it.

We congratulate the church for their wisdom in calling so consecrated and brilliant a pastor as Rev. Lusk.—Sunflower Tocsin, Indiana, Miss.

### WORTH HEARING.

It is expected that the concert to be given next Tuesday evening at Ogle's Hall by Louisville talent under the auspices of D. H. Baldwin & Co., and for the benefit of the Methodist Sunday-school, will be one of the best of the kind ever heard in Cloverport. The concert will be strictly high-class and will be worth hearing by every one. The prices will be popular.

### BELL LORE.

**Probable Origin of the Saying "Nine Tails Make a Man."**

This saying concerning bells is three parts of copper and one of tin, and this composition is almost as old as the known history of mankind, for it was discovered by Layard in the bells of old Nineveh. The tin burles the metal, but too much tin makes it brittle, and too little tin makes it soft and pliable, and above all things must not be exposed to cracking. Sometimes an enthusiastic ringer will bump the bell against the window stay above and crack it. Sometimes the long falling of the clapper on a particular spot will cause a permanent crack, which may be turned every generation or so to make the clapper fall on a new place. Clock hummers are the bell's great enemy, for they strike it sideways and not in the direction of its swing, and besides they sometimes catch it as it sweeps round. A ringer who to save his hands rings by a rope attached to the clapper will damage the bell in next to no time.

Silver has now and then been tried for bells, but, strange to say, is almost as unmeaning as lead. In the middle ages, when a great bell was to be cast crowds of the faithful would sometimes make sacrifice of their gold and

silver to give the "passing bell" was rung not after but before the departure of a dying person, which must have been very disconcerting to the invalid. The idea was that the soul got up on the body and walked away, although living. So the people would run to the window of the sickroom, the door and window of the sickroom were opened to give the soul a free choice of exits and all looking glasses were carefully draped over. For although you could not see the soul, you did catch a glimpse of it in the glass, the mirrors were carefully covered.—London News.

### SHAW AND WIL.

It is very difficult to correspond on that subject of grammar which excites correspondents as much as excites poets. It is well and easily done to rebuke the reviving Celts for their "shalls" and "will's." But are we real enough to give up our "will's" for the "shall's" and "should's" and composed and dignified, speaking "will" implies evolution, and "shall" compilation (in some degree), fails entirely to account for the interchange of these verbs with change of persons. And when we express a mere fact, we use "shall" for the first person and "will" for the second and third. "I shall die at 8, you will die at 8, he will die at 8." Why? What have we to say for ourselves to the Latin and the Celt? And yet the English child and the English constipated, who may get nothing other than "I shall" and "I will" in this most arbitrary custom.—London Chronicle.

### The Man Who Is In Earnest.

A man who is in earnest, full of inspiration, ready and impulsive was brought home to me when I was a schoolboy fiddling at college functions. I saw speakers who came forward and wailed, just spoke so many words. Then would come an orator, a man who acted, ran about, and talked, who was the part because he believed it, and so swept the people off their feet. J. F. Sousa in London Interview.

### One Occupation Less.

A visited a small resort on the coast, says the Cincinnati Commercial Tribune, asked one of the men whom he saw at the village store what he did all summer.

"Loaf and sleep," replied the native. "What do you do in the winter?" continued the inquiring visitor.

**His Prescription Failed.** Doctor (after the diagnosis)—Apparently your system is run down from nervousness unrelieved by loss of sleep. My advice would be for you to abstain from your left side, and for you to take a hot bath every night.

Albert Wright, of Roseville.

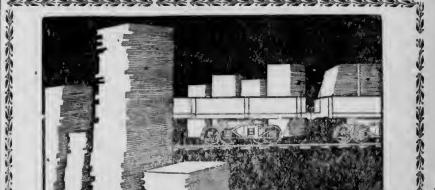

Mr. and Mrs. Aratus Haynes, of Fayetteville, W. Va., are visiting friends and relatives here.

A number of men from this place went to Strawberry Station Monday to work on the L. & N. St. roadbed.

A. T. Blain, of Memphis, Tenn., who has been visiting the family of J. M. Fawver, went to Louisville Monday on business.

Rev. Galloway, of Fordsville, filled his regular appointment here Sunday and Sunday night, and, on the account of so many deaths, the congregation was small.

There were two corpses in this town Sunday night, that of James Lawless, and Mrs. Mary Simonton. Both funerals were held the following day at the M. E. church.

This gives as follows:

"Let each Democrat pledge himself to attend all the primaries of his party to be held between now and the next Democratic National Convention, unless unavoidably prevented, and to use his influence to secure a clear, honest and straightforward declaration of the party's position on every question upon which the voters of the party desire to speak. This plan does not involve the writing of a platform in advance of the primaries; it does not rest upon the paramount importance of any one issue. It recognizes the right of the Democratic voters to control the policy of the Democratic party, and to determine its position upon public questions. It also recognizes the importance of honesty and sincerity in politics."

## JUDGE OF THE SUPREME COURT

Was Alarmingly Afflicted With La Grippe. Cured by Pe-ru-na.

reaches the source of all disease of the mucous membranes by its action on the vaso-motor system of nerves.

Every person who has had a grippe during the last year should take a course of Peruna. No one need expect perfect recovery, but Peruna will do much to relieve the patient.

Peruna has produced catarrhal inflammation of the whole mucous membrane, and good health is impossible until these are restored to a normal condition. This Peruna will do. A great many remedies have been suggested for this condition, from the use of quinine to the use of quinine, but none has any substantial value in these cases. It has never failed to give satisfaction during forty years' experience and still occupies the unique position of being the leading (if not the only) specific remedy for grippe.

Henry Dietrich, the inventor and maker of all the band instruments for the Henry Dietrich Manufacturing Co., writes the following from 1441 South Ninth street, Philadelphia, Pa.:

"I had a bad attack of la grippe last month, and when I recovered in three months, and which left me so weak, and several of my friends advised me to try Peruna. I began with a bottle the first week in March and it certainly did me a great deal of good. I was so well satisfied that I purchased another bottle and am now taking it twice daily.

"My friends tell me that Peruna is a great remedy for grippe, and I am sure it is. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and we will be pleased to give you his valuable advice gratis."

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, also Brigadier-General in Confederate Army. In a recent letter to me he says:

"Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grippe with which I have been afflicted for four months past, I have been using it with great success. I have a special, patented, concentrated formula. I feel a decided change for the better after using it only one week. It is especially good in toning up the stomach and has had a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to recovery."

"My dear friends in Texas, where I have the honor to command a brigade of the Veteran Cavalry in a four years' war, may accept this voluntary testimonial to the merits of Peruna as a sense of obligation on my part for its wonderful efficacy." —W. H. Parsons.

There is no remedy in the world that soothes while it stimulates, heals as it expurgates, Peruna is not a purgative or cathartic, or astringent, or stimulant, strengthens as it revives, nor a vegetable or mineral poison.

### OBITUARY.

George Haskell Fox, infant son of Mr. and Mrs. L. D. Fox, was born March 2, 1904, and died March 7, 1905.

The funeral service was conducted by Mayor J. T. Lewis at the Baptist church, with the Rev. Dr. Fletcher as minister, and the remains were laid to rest in the cemetery on the hill.

Rest sweetly, darling one.

Naught shall distract thy sleep.

Thy Father will be with thee.

Thy life, so short and dear,—

But why should we despair?

Thy angel spirit hover near,

And whispers "Meet me there."

A Friend.
